

# Construction Advisory

## Glen Mill Water Pump Station

**Project****Description:**

The City of Rockville will install electronic equipment at the Glen Mill Water Pump Station, at 10422 Sandringham Court, in the Avon Glen subdivision of Potomac, beginning in February.

Tourgee and Associates Inc. (TAI) will install components for the City's supervisory control and data acquisition (SCADA) system. SCADA is a computer-controlled system that collects data from various components throughout the City's water and wastewater system. This data is transmitted from remote locations to the 24-hour main control room at the Rockville Water Treatment Plant, where operators monitor and control these components.

Another City contractor, Complete Building Services Inc. (CBS), will be on-site for work related to pumping station noise mitigation.

Impacts may include construction noise due to work on-site and inside the building.

**Purpose:**

Maintenance of the City of Rockville's SCADA system to enhance overall water and wastewater system reliability.

**Location:**

10422 Sandringham Court, at the southwest corner of the Glen Mill Road and Sandringham Court intersection.

**Timeline:**

Mid-February through late May (anticipated).

**Cost:**

\$119,526
